

Freedom4U and Hearts Respond are South Bay non-profit organizations that benefit our community by providing meaningful programs in creative arts, life skills, leadership, and service to local youth. On Saturday, July 23, 2022, we will be partnering together to present **Point Fermin Day**. Located next to the ocean at the historic Point Fermin Park in San Pedro, California, the day will include live bands along with family activities for kids.

The Point Fermin Day aims to benefit **Point Fermin Elementary School**. Although it is a Marine Science Magnet School, 67% of the students are economically disadvantaged. Specifically, we are seeking to raise funds to develop several **healthy educational activities** on the school campus. The healthy educational activities will encourage teamwork, increase self-confidence and guide kids towards finding their purpose. Our plan is to rally the community to raise funds and lead on-campus community service projects. These campus projects will improve the environment leading to strengthening students character and confidence.

Becoming a **Point Fermin Day Sponsor** is a great opportunity to show your support for the students. This event will be promoted to the entire South Bay and LA Harbor communities. As a sponsor, you will enjoy recognition on our event website distributed to local families and businesses, in a thank you e-blast to our entire e-mail list, in community publicity about the event and at the event.

Your tax-deductible sponsorship will improve the lives of many kids.

If you have any questions or would like to become a sponsor, please contact me at (310) 897-5043 or [greg@freedomcommunity.com](mailto:greg@freedomcommunity.com). For more information about our Point Fermin Day, please visit [www.freedomcommunity.com](http://www.freedomcommunity.com). Thank you again for your consideration of our request and your dedication to making kids lives better.

On behalf of the kids,

*Greg Allen*
